

FOR IMMEDIATE RELEASE / REVIEW

WISHMASTER STUDIOS Releases PUPPY IN PERIL

Stay At Home Dad with no former programming experience develops Cheeky Puzzle Strategy Game for under USD \$2,500.

Australia, May 27th, 2019. PUPPY IN PERIL is a hilarious and creative game that combines elements of mechanical puzzle and strategy games.

The developer, WISHMASTER STUDIOS has released PUPPY IN PERIL as a FREE game for Android devices on Google Play. Unlike most FREE games, PUPPY IN PERIL can be completed and all content unlocked without having to watch Ads or make In-App Purchases.

Released on May 27th, 2019, PUPPY IN PERIL stars the confident and adorable PAPPY, the happy puppy with a cheeky sense of humour. Players must guide PAPPY through 100 levels of challenging shape puzzles to reach the top of Magic Mountain while defending against the ANGRY MOBS that want to destroy PAPPY's happiness.

Puzzle games have never been this funny - PAPPY's shameless use of bodily functions leads to hilarious consequences for the unsuspecting ANGRY MOBS and give the Player a great sense of revenge satisfaction. The Player can also combine PAPPY's bodily functions with other objects in the game for wacky results. See how an unarmed puppy causes Lightning!

In the short time since release, PUPPY IN PERIL had already amassed over 1 player worldwide and had been awarded WINNER of Under 1 Game Of The Year Awards.

WISHMASTER STUDIOS operates from Australia. Puppy in Peril was created using Unity Game Engine 2017.4.0f and with a budget of USD \$2,500 which was mainly spent on purchasing artwork.
